Service Agency

To whom it may concern,

herewith, we confirm that Hydraulic Engineering Repair Services (Pty) Ltd (HERS), Germiston, South Africa, is our service agent in the SADC region. This means HERS is authorized to represent our company for service activities of our axles and sales activities of spare parts on their own responsibility and account.

We have been training their service staff several times so that they are able to repair and service our axles according to our standards.

We are working together with HERS for a number of years very successfully and are convinced that we can intensify this relationship in the future as they illustrated an excellent track record and we judge their capabilities positively.

Kessler & Co. GmbH & Co.KG
